

Testimonial

As a responsible Director I recognise that in today's hardening market place it is essential that my business runs efficiently and my premises remain securely protected from the costly result of crimes such as vandalism, theft or even arson.

Trojan Security Solutions Ltd have been supplying professional security services to my Company since December 2007, providing me with complete peace of mind and allowing me to focus on running my business.

The level of professionalism, honesty and commitment exhibited by the staff at Trojan meets the exacting standards that I expect from my own team and therefore allows them to work seamlessly alongside my own staff.

During our time working with Trojan Security Solutions their Directors Kevin and Michael have always been on hand to provide friendly, informative and impartial advice on the best way to protect and secure my business interests.

Greg Cook-Scowen
MANAGING DIRECTOR
